DETAILED ACTION

Receipt is acknowledged of the amendment filed 02/18/2009.

The rejection under 35 USC 103(a) over Lai is withdrawn in view of applicant's amendment.

Allowable Subject Matter

Claims 20, 22, 24 are allowed.

The following is a new rejection of the claims:

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3, 5, 26 and 27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims are unclear in that a curing inhibitor has been added to the composition of the polymer. According to the specification at page 14, lines 12-15, the inhibitor is only present until "curing is induced, Shortly before application of the composition." Therefore, the second part of the independent claims which refers to the curing characteristics comes into question. The reason for this is that curing can not occur if the inhibitor is present. Clarification is required.
